

Suite
The complete set of all the data to be processed.

Name	Locality	Magnetic declination			
Site	Site	Site	Site	Site	Site

Site
All samples from one location, or from a particular range of depths.

Name	Height	Bedding			
Sample	Sample	Sample	Sample	Sample	Sample

Sites are not required. If none are defined, the suite contains the samples directly.

Sample
One physical rock specimen, or one position on a long core.

Name	Volume	Orientation			
Step	Step	Step	Step	Step	Step

Treatment step
The state of a Sample after a particular series of treatment steps.

Treatment	Magnetization	Susceptibility
